**Capstone Tailwind**

Aug 2024 - Sep 2024

- **MEMBER**

**Tech Stack:** HTML, CSS, JavaScript, SCSS, LESS.

**Responsibility:** The website is a **design template built with Tailwind CSS**, offering **modern components** and **layouts** for web development projects. To create a similar website, **HTML** can be used for **structuring content**, **CSS** for **styling**, and **JavaScript** for **enhancing interactivity**. **SCSS** and **LESS** are CSS preprocessors that help **optimize the design** through the use of **variables**, **nesting**, and **mixins**. This combination ensures a **clear structure**, **flexible design**, and **strong interactive capabilities**.

## **BORN VLU – VĂN LANG TOUR**

July 2023 - July 2023

- **Content Creator**

**Topic:** A creative post simulating a concert named "BORN VLU – VĂN LANG TOUR", inspired by BLACKPINK's concerts. Student credit units were presented as ticket tiers (0.5 to 6 credits), with a concert-style seating chart using color codes. Graphics were professionally designed using Photoshop to resemble promotional concert posters. This humorous and engaging approach helped increase student interest in course registration.
